TO WHOM IT MAY CONCERN:

I am not a person who recommends many people, but I am making an exception in this case.

I have known Donna Maria for many years. We first came together through a mutual friend who knew I was looking for someone to help me with strengthening my marketing efforts. From my first meeting with her I KNEW "this is one talented lady." She is quick on her feet, filled with creative ideas, able to communicate with clarity and reliable!

The last one is so important. When Donna Marie tells you it will be done, *you can take it to the bank!* If you are looking for someone to help you strengthen, create or increase your marketing effort, look no further. You have found the RIGHT person.

Sincerely,
